

SL Green's Local Law 87 Compliance FAQ

Feb. 2016
Rules Published

Aug. 2016
Rules Effective

GRACE PERIOD

Aug. 2017
Law Enforced

OVERVIEW

What do updates to LL87 require?

- » Additional sorting step of recyclables
- 2 Steps of Source Separation:

1. Waste
2. Recyclables

NOTE: **NEVER** mix trash with recyclables

What kind of recycling will be implemented?

- » Single Stream

Contracted waste hauler will pick up and process paper & metal/glass/plastic in one truck, and waste in another

NOTE: Your building has a stringent recycling program in place and DSNY will issue fines for non-compliance

Paper

Metal, Glass, Plastic, and Beverage Cartons

Garbage

REQUIREMENTS

What is required of tenants?

- » Tenants **MUST** comply with LL87 requirements:
 - Implementation of a 2-bin system to properly sort paper, metal/glass/plastic & waste
 - All bins must be clearly labeled stating the type of material that is being collected
 - Post and maintain signage in public, dining, pantry & maintenance areas instructing how waste and recyclables should be separated

What is required of SLG?

- » Re-education of janitorial sorting and drop-off
 - Clear bags - recyclables
 - Black bags - waste
- » Standardize signage, decals, waste management policy and tenant materials across the portfolio
- » Work with buildings to configure loading dock
- » Notify tenants about proper compliance

NEXT STEPS

What is the best office configuration?

- » Suggested office waste-bin configuration:
 - Deskside bin for recycling
 - Recyclables also in pantry area
 - Waste bins in a centralized location
- » NOTE: SLG will **NOT** be providing additional bins, signage or labels. Links for purchasing options are found to the right
- » Bulk & e-waste pickup to be arranged separately
